PROFILE

Hey there! I'm a third year student deeply immersed in the world of technology, and I've got quite the knack for web development. My journey began with a love for creating visually stunning webpages that not only look great but also function flawlessly. I've dabbled in HTML and CSS to craft interfaces that users find both intuitive and delightful to navigate. I love to code in Python and C.

As a third-year student, I'm constantly hungry for knowledge and eager to expand my skill set. Whether it's diving into new frameworks or exploring the latest trends in data analytics,

EMPLOYMENT HISTORY

May 2023 — Jul 2024

INTERN, Intel

Greater Noida

Hey there! I'm a third year student deeply immersed in the world of technology, and I've got quite the knack for web development. My journey began with a love for creating visually stunning webpages that not only look great but also function flawlessly. I've dabbled in HTML and CSS to craft interfaces that users find both intuitive and delightful to navigate. I love to code in Python and C.

During the tenure I worked with my team members in building the FIGO FSM Rover project where I worked on the labs and attended all their senior meetings I also,

- Collaborated with engineering team members to optimize software or hardware interfaces.
- Outlined specifications and performance requirements, working with quality assurance team to fully test all variables.
